- GPA: 2.96/4
- IELTS Score: 6.0

EDUCATION

IT ENGNIEER **8/2021 - 12/2025**

UNIVERSITY OF TECHNOLOGY AND EDUCATION - THE UNIVERSITY OF DA NANG

- September 2021 – Expected Graduation: May 2026

Projects

TGDD Scraping

12/5/2025 - 24/5/2025

Team Project

Github:: https://github.com/vinhthai2905/tgdd-scraping
Position:: Back-end Developer
Description: Web application for scraping datas from certain websites for example The Gioi Di Dong in this project. Splitting each component into microservices isolated by Docker Container.:
Tech Stack: FastAPI, SQLAlchemy, BeautifulSoup, PostgreSQL, Docker, Git, nginx.
Designed and implemented API endpoints for microservices. Handling server-side logics and data processing.

Accommodation Booking

25/3/2026 - Ongoing

Personal Project

GitHub::https://github.com/vinhthai2905/accommodation_booking
Position:: Full-stack Developer
Description: Developing a web application for managing accommodations, allowing partners to list their properties and make them available for booking on the platform. Using PostGis to store and process geospatial data, enabling properties to be displayed on actual map, so users can gain better insight into a property surrounding area.
Tech Stack: Django, JavaScript, PostgreSQL, PostGis Docker, Git, nginx.

TECHNOLOGY SKILLS

PYTHON DJANGO REST FRAMEWORK

Experienced in building backend APIs with authentication using JWT, validation, permissions, and relational database models

JAVASCRIPT REACT LIBRARY

Experience developing frontend features with React, including reusable components, form handling, and API integration

DATABASE

PostgreSQL

Git & Docker

Familiar with Git and Docker for version control, containerized development, and basic deployment workflows.

IDEs

PyCharm, Visual Studio Code

Certifications

20/7/25 JavaScript Basics - University of California, Davis (Coursera)
